

CLAIMS

1. A feed additive for domestic animals, comprising a Grifola-derived substance selected from one or more of dried Grifola, dried Grifola powder, and a Grifola extract mixed therein.
2. The feed additive for domestic animals of claim 1, wherein the dried Grifola is produced by heating and drying fresh Grifola by gradually increasing the temperature stepwise initially from approximately 60°C to finally approximately 80°C.
3. The feed additive for domestic animals of claim 1, wherein the Grifola extract is a Grifola extractive obtained by adding an alcohol to a water extract of fresh or dried Grifola or/and dried Grifola powder, leaving the resultant to stand, removing matter floating on or in the solution or adhering to the wall surface of a vessel, and concentrating the resultant.
4. A feed additive for domestic animals, comprising a Grifola-derived substance selected from one or more of dried Grifola, dried Grifola powder, and a Grifola extract and a yeast-derived substance mixed therein.
5. The feed additive for domestic animals of claim 4, wherein the yeast-derived substance is a dried yeast cell wall.
6. The feed additive for domestic animals of claim 4, wherein the Grifola-derived substance and the yeast-derived substance are mixed to result in a proportion of the former substance to the latter substance that is between 0.05 : 1.0 and 3.0 : 1.0.
7. The feed additive for domestic animals of claim 6, wherein the yeast-derived substance is a dried yeast cell wall.
8. The feed additive for domestic animals of any one of claims 1 to 7, wherein the domestic animals are chickens, swine, or cattle.
9. A feed, comprising 0.05% by weight to 1% by weight of the feed additive for domestic animals of any one of claims 1 to 7 added thereto.
10. A method for raising domestic animals, comprising providing 5 to 600 mg per day of the feed additive for domestic animals of any one of claims 1 to 7

per kg body weight of a domestic animal.

11. The method for raising domestic animals of claim 10, wherein the domestic animals are chickens, swine, or cattle.

12. A method for producing meat of domestic animals with good flavor, comprising providing the feed additive for domestic animals of any one of claims 1 to 7 to domestic animals.

13. A method for producing meat of domestic animals with good flavor, comprising providing 5 to 600 mg per day of the feed additive for domestic animals of any one of claims 1 to 7 per kg body weight of a domestic animal.

14. The method for producing the meat of domestic animals of claim 12 or 13, wherein the domestic animals are chickens, swine, or cattle.
